High-Margin RFQ Follow-Up Tracker & Proof SOP

The 3-Stage Closing Cadence That Beats 50+ Low-Price Competitors Without Slashing Margins

THE PRICE-WAR TRAP: WHY DISCOUNTING DESTROYS FACTORIES

■■ The IndiaMART Price Race

When 50 factories receive the same lead, 48 compete solely on lowest price. The winner often works at zero profit or delivers substandard batches.

78% Of enterprise buyers choose the vendor with superior technical proof over the cheapest quote.

■ The Proof-First Closing SOP

High-margin factories don't send naked prices. They frame every quotation with proof assets, tiered packages, and technical warranties.

15 Min Ideal response window. Speed-to-quote + technical proof locks out late competitors.

THE 3-TIER QUOTATION ARCHITECTURE

TIER OPTION	WHAT IT INCLUDES	STRATEGIC BUYER IMPACT
Tier 1: Commercial Baseline	Standard material grade, baseline tolerance (±0.05mm), standard packaging, ex-factory delivery.	Matches competitor price quotes so you are never dismissed as 'too expensive'.
Tier 2: Certified Precision Run [Recommended]	Virgin raw material, 100% batch dimensional check, export-grade packaging, MTC test cert included.	**High Margin:** 65% of serious buyers choose Tier 2 because it eliminates assembly downtime risk.
Tier 3: Annual Volume Blanket	Locked raw material rate for 12 months, scheduled monthly dispatch drawdowns, zero stockout guarantee.	**Lock-In:** Secures guaranteed repeat production volume and removes open market bidding.

THE 3-TOUCH PROOF-BASED FOLLOW-UP CADENCE

- [ ] **Touch 1 (+2 Hours Post Inquiry):** Send formal 3-Tier PDF quotation + 20-second video of similar batch machining.
- [ ] **Touch 2 (Day 3 Follow-Up):** WhatsApp photo of export packaging, palletization, and laboratory test inspection certificate.
- [ ] **Touch 3 (Day 7 Follow-Up):** Raw material price alert / production schedule slot allocation deadline notice.
- [ ] **Lead Logging SOP:** Record Buyer Name, Company, Spec, Target Qty, and Decision Date within 10 minutes of arrival.
- [ ] **Sample Offer Escalation:** Offer immediate 3-5 piece sample dispatch for vendor approval testing before mass orders.
- [ ] **Production Slot Cutoff:** Announce weekly furnace/machining scheduling cutoff to create genuine procurement urgency.

OBJECTION HANDLING: 'COMPETITOR 10% SASTA DE RAHA HAI'

VALUE DEFENSE & RISK INVERSION SCRIPT (WHATSAPP / PHONE)

'Bilkul sahi baat hai, sir. Market mein 10% sasta rate mil jata hai. Par manufacturing mein 10% rate 3 hi cheezon se nikalta hai:
1. **Scrap/Commercial grade raw material** (jisme tensile strength ya chemical composition fail hone ka risk rehta hai)
2. **Testing skip karna** (Spectrometer aur hardness test certificate na dena)
3. **Tolerances loose rakhna** (jisse assembly line pe rejection 15-20% badh jati hai)
Humare quote mein virgin raw material, 100% batch testing, aur replacement guarantee included hai. Sir, hum pehle **chhota trial batch** dispatch kar dete hain — aap khud lab mein test kar lijiye. Agar spec match nahi hua, to 100% refund.'
